There were four deaths in infants under one year, a mortality rate of 24 per 1,000 live births, national rate 18. 75.6% of deaths occurred in persons over 65 years, Ischaemic Heart Disease and Cardiovascular Disease again being the greatest killer. Malignant Neoplasm of the Lung caused 12 deaths, 4 more than the previous year, whilst malignant neoplasm of the intestine caused 13 deaths. There were 169 births, 21 of which were illegitimate, giving a birth rate 12.7 per 1,000 population, lower than the national rate of 16.0. The illegitimate live births as percentage of all live births was 12, three more than the previous year, while the national rate was 8, same as the previous year. There were 12 cases of infectious diseases notified, a big drop compared with the previous year, when 59 cases were notified. Of the 12 cases notified three were measles, one whooping cough, one suspected food poisoning, two pulmonary tuberculosis, and five infective jaundice.

On the environment side 96 houses were erected, 32 by the local authority, demolition orders were made in respect of three houses, all were demolished. Caravan Sites licensed were 20, accommodating 3,538 vans. Sites and Vans were inspected regularly and 19 contraventions remedied, there were 145 chalets. Under the Offices, Shops and Railway Premises Act 350 premises were registered, these were regularly visited and 69 defects remedied. Refuse continued to be collected weekly in winter, parts of the district twice weekly in summer, and where necessary daily during the season, disposal by controlled tipping.

The water supply to the town was satisfactory in quality and quantity, there were no bad bacteriological reports, and no action had to be taken in respect of contamination. The number of dwelling houses supplied direct from public water mains was 5,102 and the population served was 13,270 no dwelling house was supplied by means of a stand pipe. As regards fluoride content Skegness is supplied with a small quantity of water from the two bores at Mumby. (Sandstone Bore)

It also gets its supply from (Welton Bore) fluoride content 0.03 p.p.m.,
